TRANSFORMATION OF CITY
LANDSCAPES IN EUROPE**

THE NEW EUROPEAN BAUHAUS

Eyes Hearts Hands is part of the New European Bauhaus (NEB) initiative, a creative and interdisciplinary movement promoted by the EU that connects the European Green Deal to our living spaces and experiences.

OUR GOAL

The Eyes Hearts Hands project supports 7 districts (DK, EL, BE, PT, TK, HR, IT) experiencing different socio-economic and infrastructural challenges with innovative co-design activities.

The project will deploy a set of tailored social innovation actions to engage and commit the participation of relevant urban players at multiple and multidisciplinary levels: technology co-design, co-financing, and aesthetic co-creation. The aim is to design and apply solutions to cities' environmental, social, and infrastructural challenges and make them sustainable and resilient for the long haul.
